

# How to shoot a video from a Trello card on iPad / iPhone / Android / Tablet

- You may experience a problem in attaching a one-minute video on Trello as there is a 10 MB file upload limit per a video uploaded from your computer.
- It's therefore suggested that you shoot a video directly from a Trello card by following this instruction.

1. Add a new card. Then, tap at the card to edit it.

2. Choose "Attachments"
